Grade 3 Mathematics: Number, pattern and measurement

Mathematics · Grade 3 · 20 marks · 45 minutes

Learner name: _____ Date: _____

Time: 45 minutes Total: 20 marks

Instructions

- Answer all five questions.
- Show calculations where requested.
- Use evidence from the printed stimulus when a question refers to it.

Assessment

Read the stimulus and each question carefully.

> *The class collected 24 bottle tops on Monday and 18 on Tuesday. They put the tops into bags of 6 for a sorting activity. A number pattern on the board begins 5, 10, 15, __, __.*

1.1 How many bottle tops did the class collect altogether? Show your addition. **[4]**

1.2 Use your total from Question 1.1 to put the bottle tops into bags of 6. Show a calculation or equal-groups drawing. State how many full bags you can make and whether any tops are left. **[4]**

1.3 Complete the pattern 5, 10, 15, __, __, state its rule and give the number that would be in the eighth position. **[4]**

1.4 A ribbon is 35 cm long. Sipho uses 12 cm. How much remains? **[4]**

1.5 Name one 2-D shape with four straight sides and one object with that shape. **[4]**
