

PHYSICAL SCIENCES

PHYSICAL SCIENCES GRADE 12 TERM 3 CONTROLLED ASSESSMENT PACK

SUBJECT	PHYSICAL SCIENCES
GRADE	12
ASSESSMENT TASK	PHYSICAL SCIENCES GRADE 12 TERM 3 CONTROLLED ASSESSMENT PACK
MARKS	50
TIME	1 hour

Educator approval required before classroom use.

INSTRUCTIONS AND INFORMATION

1. Read all instructions carefully.
2. Answer all questions or complete all activities as instructed.
3. Show all working where calculations, planning, diagrams or explanations are required.
4. Use the space provided by the educator, answer booklet or learner task book.
5. Write neatly and clearly.

FIGURE 3: Physical Sciences Labelled Diagram Stimulus

Physical Sciences		DIAGRAM
Physical Sciences Grade 12 Term 3 Controlled Assessment Pack		
Labelled science diagram stimulus		
The diagram consists of two concentric ellipses. The outer ellipse is filled with a light blue color and has a black outline. It is connected by a line to a rectangular box labeled "Label A". Inside the outer ellipse is a smaller, white-filled ellipse with a blue outline, connected by a line to a rectangular box labeled "Label B". On the upper-left boundary of the outer ellipse, there is a small red circle, connected by a line to a rectangular box labeled "Label C". On the lower-right boundary of the inner ellipse, there is a small green circle, also connected by a line to a rectangular box labeled "Label C". Two curved arrows are present: one starting at the top right of the outer ellipse and pointing downwards along its curve, and another starting at the bottom right of the inner ellipse and pointing upwards along its curve.	Assessment actions Physical Sciences Grade 12 Term 3 Controlled Assessment Pack	
		Identify labelled structures Explain the process Relate structure to function Predict effect of a change
Use this as the supplied diagram; replace labels with topic-specific structures during review.		

QUESTIONS

QUESTION 1: SECTION A: CONCEPTS AND DATA

Instructions: Use the supplied data, diagram or graph.

Stimulus: Data/diagram stimulus linked to chemical change, equilibrium, acids and bases, electrochemical cells.

1.1. Define one key concept from the term focus. **(2)**

1.2. Describe the trend or relationship shown by the supplied data. **(5)**

1.3. Explain the process or principle using correct terminology. **(8)**

1.4. Calculate or infer a result from the supplied values and show working where needed. **(5)**

QUESTION 2: SECTION B: INVESTIGATION DESIGN

Instructions: Critique method, variables and evidence.

Stimulus: Investigation focus: balanced equations, calculations, data interpretation and method critique.

2.1. State a suitable aim or hypothesis for the investigation. **(3)**

2.2. Identify independent, dependent and controlled variables. **(6)**

2.3. Evaluate validity and reliability and suggest one improvement. **(6)**

QUESTION 3: SECTION C: APPLICATION

Instructions: Use subject knowledge and supplied evidence.

Stimulus: Application focus: practical investigation pack with graph/table evidence.

3.1. Answer an integrated explanation question using evidence from the stimulus. **(15)**

MARKING GUIDELINE

TASK 1: SECTION A: CONCEPTS AND DATA

1.1. Define one key concept from the term focus. **(2)**

- Definition scientifically accurate.

1.2. Describe the trend or relationship shown by the supplied data. **(5)**

- Trend described.
- Evidence cited.

1.3. Explain the process or principle using correct terminology. **(8)**

- Correct terms.
- Logical explanation.

1.4. Calculate or infer a result from the supplied values and show working where needed. **(5)**

- Working shown.
- Answer accurate.

TASK 2: SECTION B: INVESTIGATION DESIGN

2.1. State a suitable aim or hypothesis for the investigation. **(3)**

- Aim/hypothesis testable.

2.2. Identify independent, dependent and controlled variables. **(6)**

- Variables correctly classified.

2.3. Evaluate validity and reliability and suggest one improvement. **(6)**

- Validity/reliability explained.
- Improvement practical.

TASK 3: SECTION C: APPLICATION

3.1. Answer an integrated explanation question using evidence from the stimulus. **(15)**

- Evidence used.
- Explanation coherent.
- Conclusion supported.

RUBRIC

Criterion	Marks	Descriptor
Subject accuracy and terminology	12	Uses accurate concepts and terminology.
Evidence, data or source	12	Uses supplied evidence

use		appropriately.
Reasoning and explanation	12	Shows logical, grade-appropriate reasoning.
Communication and completion	14	Answers are clear, complete and structured.

EDUCATOR REVIEW CHECKLIST

- Confirm CAPS term and topic fit before classroom use.
- Insert or approve final source material where the pack requests educator-supplied sources.
- Check mark allocation, memo wording and learner level.
- Confirm visuals are suitable and not treated as official source material unless sourced separately.
